Welcome to the May 2023 Virtual Data Lab scRNA-Seq Training Workshop!

May 15 – 19, 2023
Childhood Cancer Data Lab
https://alexslemonade.github.io/2023-may-training

Childhood Cancer Data Lab

x

Alex's Lemonade Stand

Tell us about you!

- What's your name?

- What are you studying?

- What's a recent piece of media (book, movie, TV show, etc.) you enjoyed?

Meet your instructors

Senior Data Scientist @ the Data Lab

PhD Ecology & Evolution, *UChicago*
Postdoc Integrative Genomics, *Princeton*

Research interests:
- **Evolutionary genomics**
- **Single cell workflows**

jashapiro

JOSH
Joshua Shapiro

Meet your instructors

Data Scientist @ the Data Lab

PhD Integrative Biology *UT Austin*
Postdoc Computational Molecular Evolution *Temple*

Research interests:
- **Protein evolution and reproducible genomics**
- **Data science and bioinformatics education**

sjspielman

STEPHANIE
Stephanie Spielman

Meet your instructors

Data Scientist @ the Data Lab

PhD Cancer Biology *University of Michigan*
Postdoc Computational Biology *Cornell*

Research interests:
- **Single cell data analysis**
- **Origins of pediatric solid tumors**

allyhawkins

Ally
Ally Hawkins

Meet your instructors

JACLYN

Jaclyn Taroni

Director @ the Data Lab

PhD Genetics *Dartmouth*
Postdoc Computational Biology *UPenn*

Research interests:
- **Transcriptomics in rare, complex diseases**
- **Unsupervised pattern extraction**

jaclyn-taroni

Other staff you may see (or have seen already!)

JEN

Jen O'Malley

Scientific Community Manager

- Helps administer Data Lab offerings such as workshops
- Manages communications

DEEPA

Deepa Prasad

User Experience Designer

- Talks to researchers about their needs and frustrations
- Designs usable software

Tell us about you!

- What's your name?

- What are you studying?

- What's a recent piece of media (book, movie, TV show, etc.) you enjoyed?

Code of Conduct

Be kind, have fun

We value the involvement of everyone in the community. We are committed to creating a friendly and respectful place for learning, teaching, and contributing.
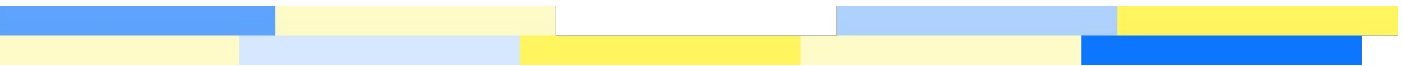

- Use welcoming and inclusive language

- Be respectful of different viewpoints and experiences

- Gracefully accept constructive criticism

- Focus on what is best for the community

- Show courtesy and respect towards other community members

Read the full Code of Conduct here:
https://alexslemonade.github.io/2023-may-training/code-of-conduct.html

If you at any time feel harassed or treated inappropriately, please contact
ccdl@alexslemonade.org.

What you will learn (and what you won't)

What you will learn

We will introduce you to the R programming language, R Notebooks, and some reproducible research practices.

We cover pipelines for the quality control, pre-processing, and initial analysis of single-cell RNA-seq data almost entirely through hands-on exercises.

We generally elect to go *broad* and not *deep*.

Our overarching goals: To prepare you to perform "frontline" analyses of your own data, to get you more comfortable reading documentation/learning new methods on your own, and to give you tools to collaborate more effectively with analysts when needed

What you won't learn

We don't address experimental design (e.g., how many replicates you need).

We won't compare tools (e.g., Bioconductor vs. Seurat for single cell analysis).

We won't cover every feature (or assumption) of the tools we do present.

You may not be able to perform every analysis you need for your own work, particularly for complex experimental designs. For example, in the context of single-cell analysis, we do not cover integrating data from multiple samples.

We present analysis as a series of *linear steps*. In practice, it's **not**. It's important to consult analysis experts when you need to and to keep track of and report what you've done.

How do we pick what we teach?

We want methods to be or to have:

- Useful for a wide range of experimental designs, sample sizes
- Easy to use, well-documented, and consistently updated
- Solid tutorials, a sizeable user base, and responsive authors/maintainers

We have a preference for methods that integrate easily into a single workflow that can be run on a laptop (and our own personal biases as scientists).
Schedule

Monday

Workshop Intro

Intro to R
RStudio Server
Base R
ggplot2 & tidyverse

Consultations
Exercise notebooks

Tuesday

Single-cell RNA-seq
Quantification & QC
Filtering & Normalization

Consultations
Exercise notebooks
Your own data

Wednesday

Single-cell RNA-seq
Dimensionality reduction
Clustering
Marker identification

Consultations
Exercise notebooks
Your own data

Thursday

Single-cell RNA-seq
Cell-type annotation
Working with CITE-Seq data

Consultations
Exercise notebooks
Your own data

Friday

Consultations
Your own data
Exercise notebooks

Presentations

Full schedule: https://alexslemonade.github.io/2023-may-training/workshop/SCHEDULE.html

Daily Schedule Outline

Instruction
Full group
Lectures

- Introduce concepts and background
- Demonstrate usage
- Answer general questions

Breakout
Small groups
Start exercise notebooks

- Split up into Zoom breakout rooms
- Ask questions of instructors and other participants

Consultation Period
Exercise notebooks
Your own data

- Practice what you have learned
- Work on exercises individually or in groups
- Work with your own data

Module Layout

00a-rstudio_guide.md
00b-debugging_resources.md
00c-good-scientific-coding-practices.md

These are reference documents.
Go through these on your own.

01-intro_to_base_R-live.Rmd
01-intro_to_base_R.Rmd
01-intro_to_base_R.nb.html
02-intro_to_ggplot2-live.Rmd
02-intro_to_ggplot2.Rmd
02-intro_to_ggplot2.nb.html
03-intro_to_tidyverse-live.Rmd
03-intro_to_tidyverse.Rmd
03-intro_to_tidyverse.nb.html

These are **Instruction** notebooks.
We'll walk through these together,
step-by-step, during the workshop.

exercise_01-intro_to_base_R.Rmd
exercise_02-intro_to_R.Rmd
exercise_03a-intro_to_tidyverse.Rmd
exercise_03b-intro_to_tidyverse.Rmd

These are **Exercise** notebooks.
Use these to practice what you
have learned. We're here to help!

Module cheatsheets cover key functions

https://github.com/AlexsLemonade/training-modules/tree/2023-may/module-cheatsheets

`dplyr`

Read the `dplyr` package documentation here.
A vignette on the usage of the `dplyr` package can be found here.

Library/Package	Piece of code	What it's called	What it does
dplyr	%>%	Pipe operator	Funnels a data.frame through tidyverse operations
dplyr	filter()	Filter	Returns a subset of rows matching the conditions of the specified logical argument
dplyr	arrange()	Arrange	Reorders rows in ascending order. arrange(desc()) would reorder rows in descending order.
dplyr	select()	Select	Selects columns that match the specified argument
dplyr	mutate()	Mutate	Adds a new column that is a function of existing columns
dplyr	summarise()	Summarise	Summarises multiple values in an object into a single value. This function can be used with other functions to retrieve a single output value for the grouped values. `summarize` and `summarise` are synonyms in this package.
dplyr	rename()	Rename	Renames designated columns while keeping all variables of the data.frame
dplyr	group_by()	Group By	Groups data into rows that contain the same specified value(s)
dplyr	inner_join()	Inner Join	Joins data from two data frames, retaining only the rows that are in both datasets.

We want your feedback!

At the end of each module,
we will post a few questions
in the Slack channel.

- The most difficult or confusing point of the module ("muddiest point")
  We will post additional material answering your questions the next day
  Responses to this question will appear in the channel anonymously

- What did you like about the module?
- How we can improve the module?
  These responses will be collected anonymously (and not posted)

Polly `APP` 3:22 PM
What did you like about this module?

📊 Results for this poll are only visible to the author

Submit Response

Owner: @Jaclyn N. Taroni | 🕐 **Closes:** May 13 at 3:22 PM | 🔒 Responses are Anonymous

Friday

Your own projects
Exercise notebooks

Spend Friday working with your own data, getting assistance as needed from Data Lab staff and each other.

Presentations

Present what you worked on during the consultation times to the group!

# Virtual Training Procedures

General Zoom Etiquette

- Keep your microphone muted
- Type questions in the Chat window (directed to the host)
  - Click on the "Chat" button at the bottom of your window to open the chat.
- Use the Zoom reactions to tell us how you are doing!

Using Slack

- Use the **#2023-may-training** Slack channel
- Post public questions, get help with errors and debugging, make comments, and help your fellow participants!
  - Use threads to keep related content together

- Watch out for feedback polls!

Josh Shapiro 4:48 PM
Should I respond more than once?

Start a thread

Jaclyn N. Taroni 4:51 PM
sure

Polly APP 3:22 PM
What did you like about this module?

Communication during instruction

zoom

- **I have an urgent question** that needs an answer before moving on:
  - *Raise Hand* or *Chat* with the room host

- **I'm stuck with an error** and can't proceed with the hands-on exercise
  - *Chat* with meeting host: Request 1:1 and you will be placed in a breakout room with a Data Lab staff member

slack

- **I have an general question** that does not need an answer right away.
  - *Post* in #2023-may-training

- **I'm having trouble logging in** to RStudio Server
  - *Direct Message* a Data Lab staff member (not the current host or instructor)

Trouble logging into Zoom and Slack? *Email* training@ccdatalab.org

Communication at other times (consultation periods)

- I have questions about **previous instruction** or **exercise notebooks**
  - *Post* in *#2023-may-training*
  - If you need to share your screen, we will set up a 1:1 or group Zoom call

- **I would like to be paired up with other participants**
  - *Post* in *#2023-may-training*; we can set you up in a Zoom breakout room

- I have a question that is **highly specific to my data**
  - *Direct Message* a Data Lab staff member

- **I'm having trouble logging in** to RStudio Server
  - *Direct Message* a Data Lab staff member

Trouble logging into Zoom and Slack? *Email* training@ccdatalab.org
